Training at RIPE Meetings

Rumy Spratley-Kanis
Training Services Manager

Q79: Do you have suggestions for how the RIPE NCC can improve the RIPE Meeting experience?

- More workshops

- Hands-on training

- More training sessions, just Monday morning is not enough

- More technical focused training and info, possibly interactive

Q80: Is there anything that would encourage you to attend a RIPE Meeting?

- Location, location, location. And teleportation

- Continuous learning and experience exchange

- More technical trainings: IPv6, DNS, Security

- More practical training

- Real life workshops like APNIC

- Interesting technical workshops

- Communications and Training departments to investigate options and decide best option for RIPE 69 and RIPE 70
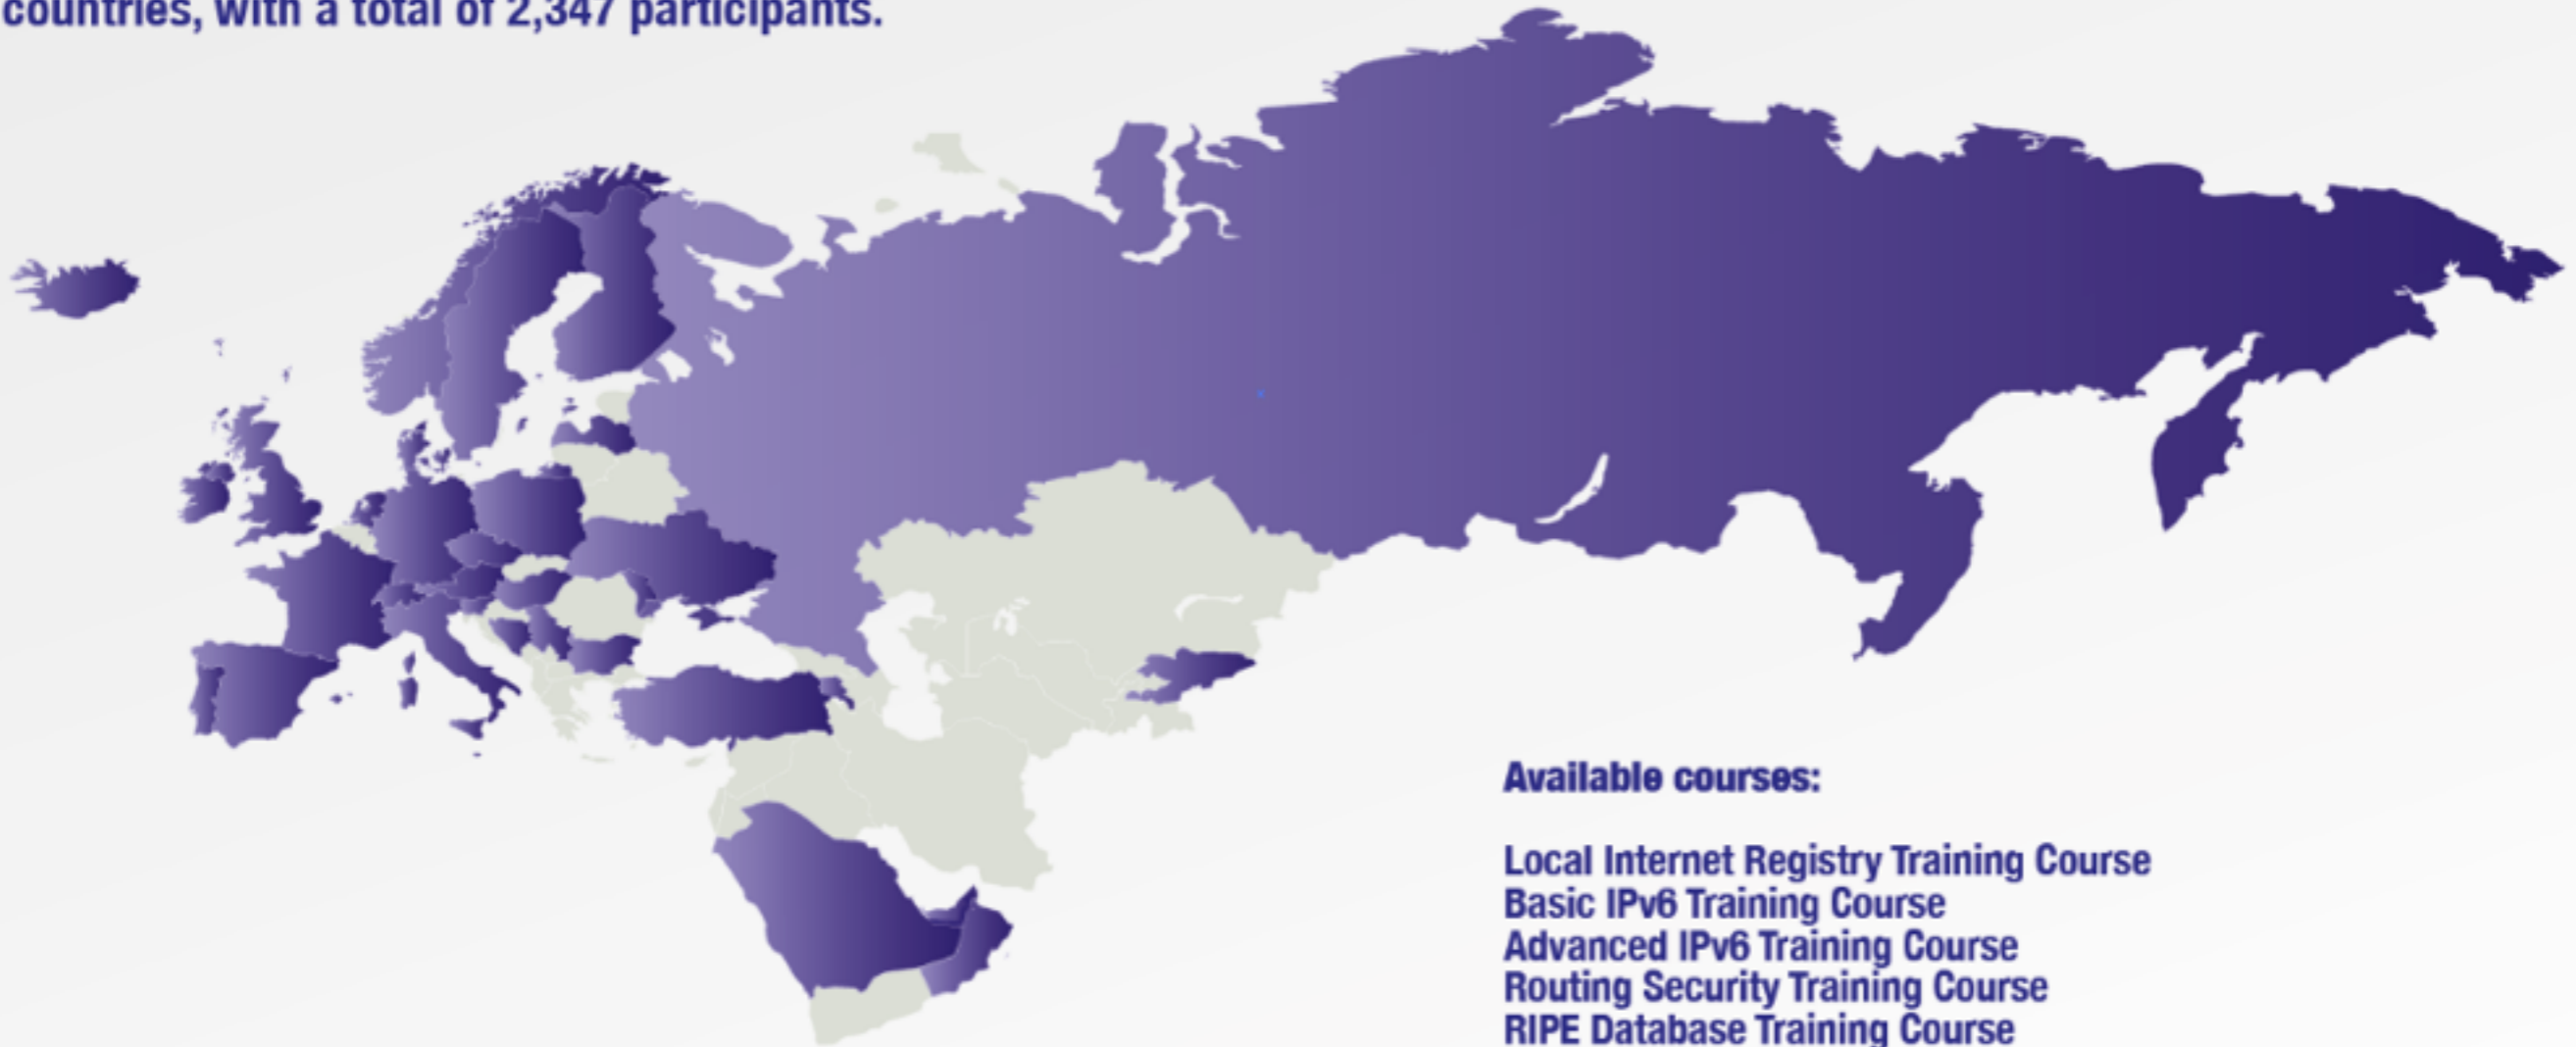

Questions

- When?
  - Before? After? During? Parallel?
- What?

Questions?
